NEW YORK, August 23.—The stock market had its upward turn again to-day. The volume of dealings was considerably larger than in yesterday's almost stagment market and the fluctuations were rather wider, but the market retained its highly professional character and gave little evidence of any interest originating outside of board room. The principal reason for the movement of the market seemed still to be that it was a reversal of that of the pervious day, the obvious tendency being to oscillate narrowly about a fixed point. Thus the marketing news that the squadron of American warships had been ordered to proceed to Belrut did not creats so much as a ripple in the stock market. There is an undisguised confidence in the finencial district, however, that this incident is capable of adjustment by diplomatic means. The discussion upon measures for repression of trusts precipitated before the session of the American Bar. Association might have caused sessitive pidation in Wall Street in some of a recent prevailing moods, but that tand the Western flood news were equal that and the Western flood news were equal the growing confidence in the morey market outlook, which was mored by several of the day's developments, and this was probably the principal factor in advancing prices of that the Secretary of the Trust precipitate with the Turkish incident. The report from washeron that the Secretary of the Trust principal movements of universal for the week show that the movement is still in favor of this center as against the interior, the indicated gain on that account being over \$2,000,000. Prices of active stocks advanced pretty generally between one and two points, and considerally alreer gains were shown by some of the specialities without explanation. The principal movements of currency for the week show that the movement is still in favor of this center as against the interior, the indicated gain on that account being over \$2,000,000. NEW YORK, Aug. 29.—The opening on the Block Excharge was the jamest since the summer preceding the last Presidential election. There was not development of interest surwhere worth speaking of. Many traders were absent and the commission houses were practically without commission houses were practically without commission to the street was deril in, possibly on the entirely unauthorized reports current of an extension of time for the bond underwriting ayndients. The best information is that the distribution of the bonds has been entirely satisfactory.

THE FIRST HOUR:
The market developed a little more activity
and a more definite trend in the first hour than
for some time past. The buying came from the
stronger class of traders and might be taken
as an attempt to test the market value of the
promised Treasury support to the money market
in the fall, if such support about become
neccessity.

was considered good enough to be chowed by the traders. Bros. and A. A. Houseman were active in the early raily.

London was a light trader early, but seemed inclined to buy a little steek on the raily.

The movement in Amazimanted Copper loaded respectable and probably received some encouragement from the Lewischin interest, which has litherto been more inclined to bold the steek in hand where it showed signs of strongth. The foreign liquity for Amaconda has probably been to some extent a buil industree.

RALLY BROUGHT NO BUSINESS:
The rally of the first bour did not seem to bring in business from outside, and before moon the merket was afready as dull as ever. Traders who had followed the advance sold a little stock, and in two or three places where encouragement had been looked for it was not

PROCURSEMENT PART DEED TOOKED FOR IT WAS NOT FORTHWAY AFTERNOON:

In the early afternoon the market showed considerable strength under a rather professional class of buying. Bull points were very gonerously distributed around the street, and almost very body had it from the activa, if not the mat industrial, sources that a five-point rise was counter. was coming.

THE CLOSING:
The close was firm, but the market was distinctly less active than it had been earlier in the day. Floor traders took profits, but found it rather easy to sell stock, and the professional opinion seemed to be in the direction of some surface in the interest in the direction of some surface in the interest in the direction of some surface in the contract of the contra

# WEEKLY TRADE REVIEW

There is Disposition in Some Sections to Hold Back on Orders.

to Hold Back on Orders.

(By Associated Press.)

NEW YORK, Aug. 28.—Bradstreet's tomorrow will say:
Trace conditions are still slightly uneven due to the backwardness of crops in sone sections, damages reports from others and uncertainty as to the monetary outlook. Fall trade in favorably situated sections compares well with a year ago, while in others, a disposition to hold back is manifested. Car congestion reports are still numerous. The feeling grows that the iron trade is grounding on the bottom as regards prices, and small buying of pig iron is more marked; but here again some uncertainty is still noticeable. Taken as a whole, the situation has many elements of strength. What business is doing, is of a solid character, and, in fact, any tendency to over-extension is conspicuously absent.

The cotton goods trade feels the effect

# REPRODUCE MONTICELLO

More Funds Needed by St. Louis Commissioners.

THE LADIES ARE AIDING

Daughters of the American Revolution of Lynchburg Make a Gratifying Proposal-Big Tobacco Exhibit Assured.

The Virginia Commission to the St. Louis Exposition met yesterday morning in the office on Governor Street, and were busy much of the day hearing reports from Captain O. W. Stone, in charge of the tobacco exhibit, and Captain T. C. Morton, press representative and solicitor for the fund to rear a Virginia building at St. Louis, Mr. George E. Murrell, the assistant commissioner, who is doing the chief work of collecting the State's exhibit at the exposition, wired that he would not be able to be present having missed his train, but would arrive to-day. Accordingly the commission will meet again to-day, at which time Mr. Murrell will be present.

There were present yesterday Commissioners Bowman, Koiner and Patton; Assistant Commissioner W. W. Baker, Messrs. Stone and Morton, Mr. W. S. Mc-Kean, secretary of the Jefferson Memo-rial Association, also called on the commissioners during the day. MUCH ENCOURAGEMENT.

Captain Morton reported having visited nearly all the cities and towns of the State, and having met with much substantial encouragement from the press of the State in advancing the more incomment. State, and having met with much substantial encouragement from the press of the State in advancing the movement to secure an' adequate representation at the exposition. Of the nearly two hundred papers in the State, all sawe one have printed matter in the interest of the Virginia exhibit, and endorsed the movement for a Virginia building. Some individual citizons of the State have subscribed liberally to the fund, and many of the public mon of the State have contributed to the fund, but the total amount subscribed is still inadequate to the purpose of reproducing Monticello, though already sufficient to insure a building of some kind.

Fortunately for the enterprise, the indies of the Bius Ridge Chapter, Daughters of the American Revolution, of Lynchburg, have come to the aid of the commission, and have offered to assist in helping to raise the Monticello building fund. They hope to enlist the co-operation of the other twenty-five chapters in the State, and to be able to help the commission to the amount of several thousand dollars. Mr. Morton, who met with these indies in Lynchburg Thursday, brought a proposition from them, which was gratefully received by the commissioners. The action taken by the Boards of Trade of the cites of Fredericksburg, Roancke and Staunton in endorsing the Virginia building scheme has been very helpful and encouraging, and it is hoped that other cities will follow this lead. Fredericksburg was the first to move in this matter.

TOBACCO EXHIBITS.

Captain O. W. Stone, of Martinsville, who has charge of the work of collecting the tobacco exhibit from this State, made an admirable report, which gives assurance of a large and creditable exhibit of the leaf and manufactured products of the State. He reported that he had visited and conferred with the tobacco dealers and manufacturers of Richmond, Petersburg, Danville, Lynchburg, Farmwille, Martinsville, Boydton, South Boston, Keysville and various other markets, and at all these places great interest was shown in collecting a really creditable exhibit of the tobacco products of the State. Nearly all the dealers and manufacturers agreed to prepare their own exhibits, and some, Martinsville among the number, will spend several thousand dollars on their exhibits. In fact, individuals will spend as much or more on this exhibit as the commission. This tobacco exhibit will be one of the features of Virginia's dispiny at the big fair.

Superintendent Murrell, who will arrive to-day, is expected to make a very interesting report, covering his efforts of the past two months in all parts of the State. He will report especially on his efforts to collect exhibits of minerals, grains, fruits, forestry and the varied animal and vegetable products of the State.

They are Mr. Eugene Ould, of Evington, a widely haven countryman, and Mr. Trevillian who is also popular. The race is a close one with the result uncertain.

For the Sennte, in this district, Mr. A. F. Thomas and Mr. William O'Brien are the aspirants, the district including Lynchurg and Campbell, but the county being entitled to the senator. Mr. Thomas is one of the brightest of the younger men of the State, and has contributed frequently to the press and to current literature. The press and to current literature of governmental and conchine questions. He is a vigorous writer and a forceful speaker. Mr. O'Brien is an older man and a prosperous man of affairs of great business sagnetty.
